Make 3D

During assembly, B goes OVER A (i.e. A goes inside B). Note that the far edge of B can be used to hold down the folds under the flame/petal

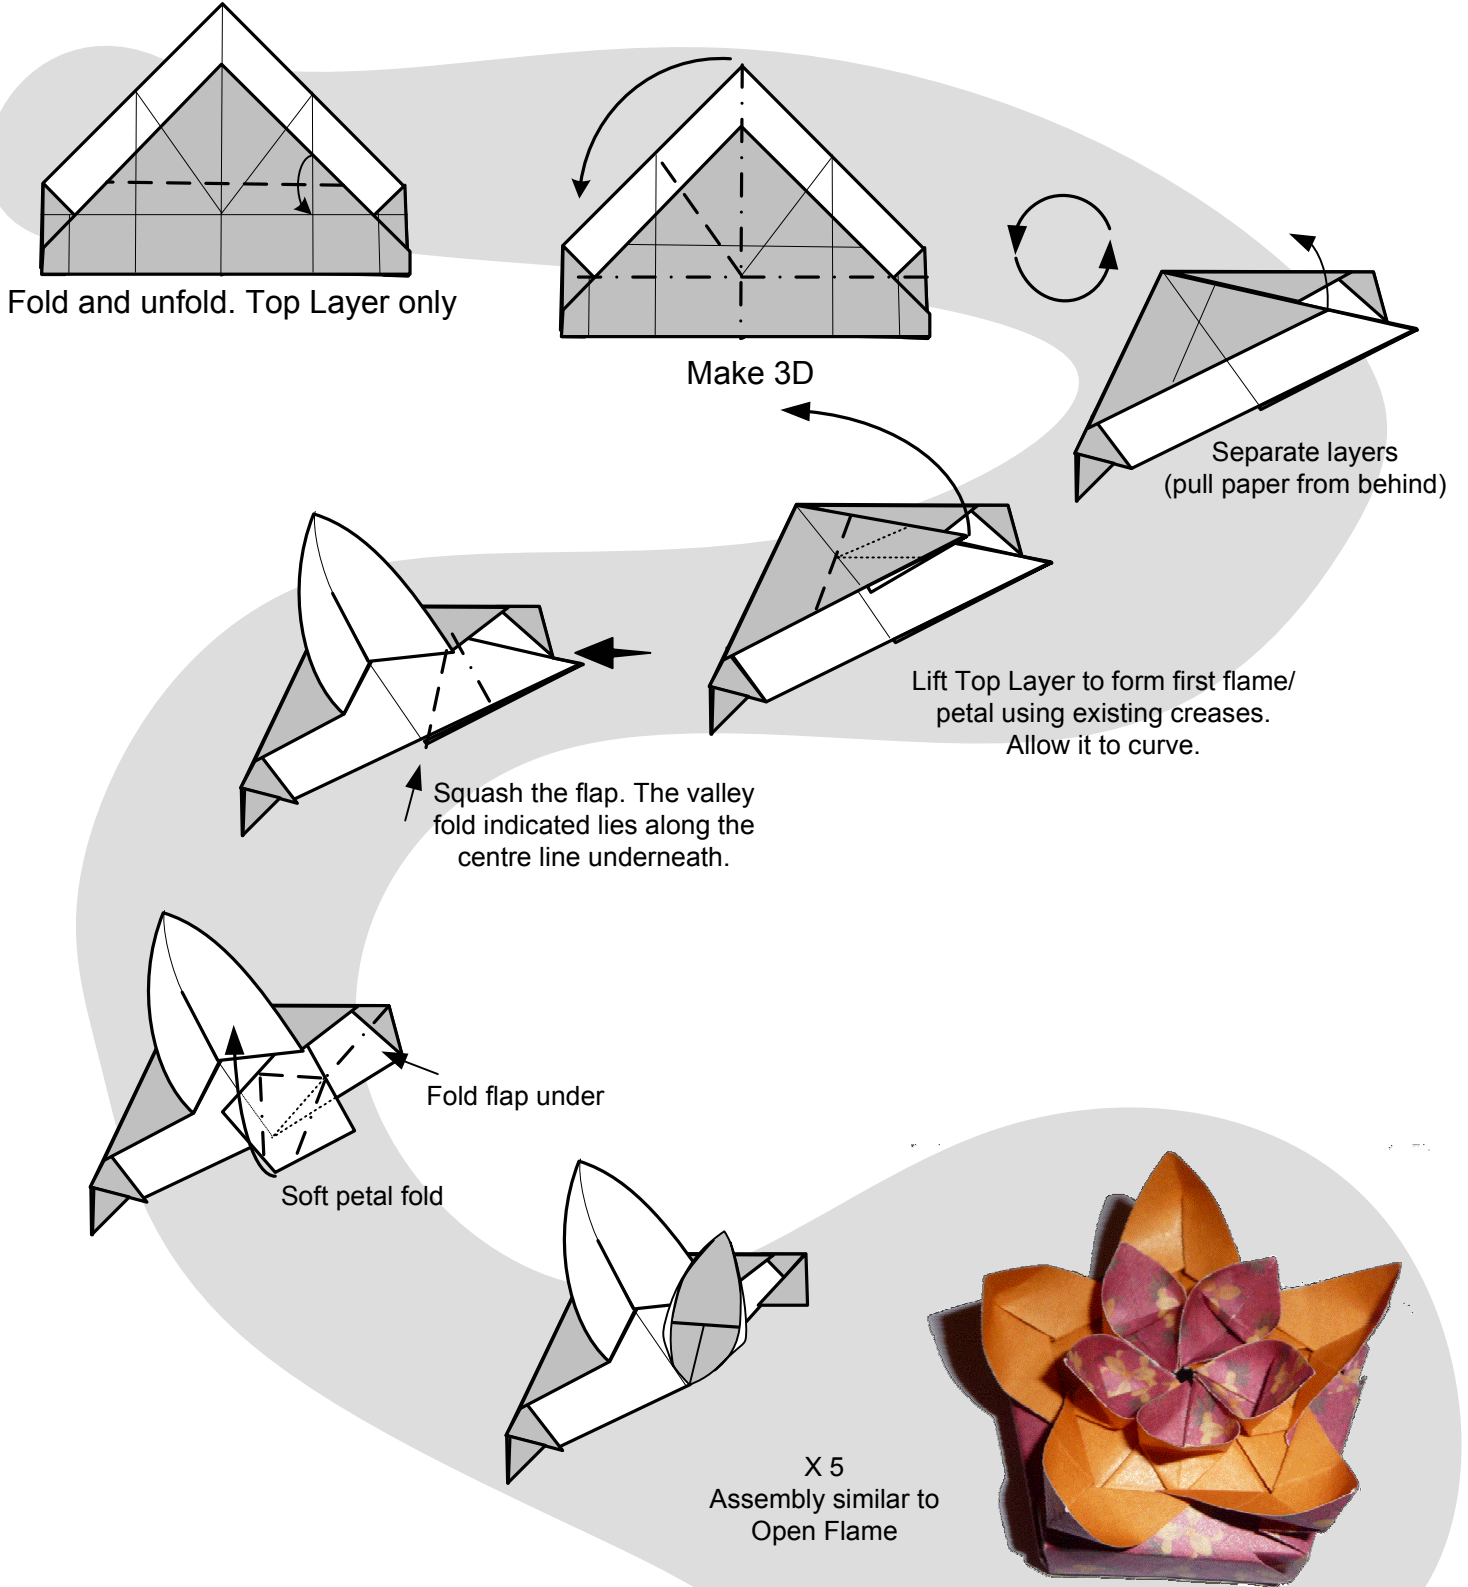

Double Flame Box - Lid

Variation of Open Flame. Uses same body.

Model and Diagrams © Dennis Walker

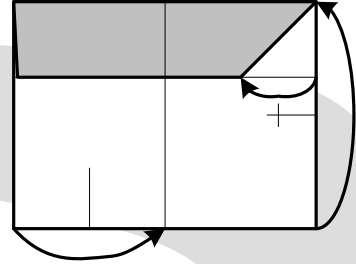

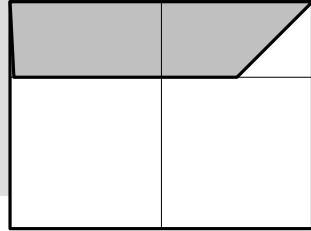

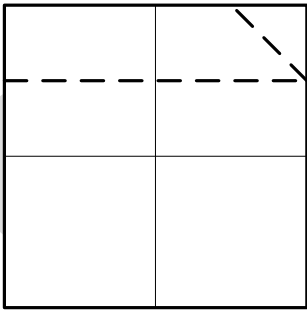

Fold Open Flame Lid up to and including the diagram marked ★

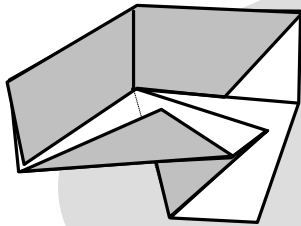

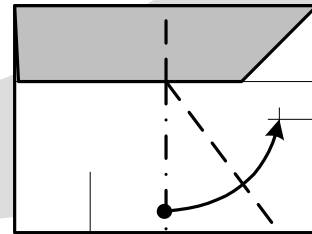

Flame Box - Body

Model and Diagrams © Dennis Walker

(Note: Unconfirmed suspicion that this may be an independent discovery of a base by Tomoko Fuse)

Add the pinch marks shown

One unit complete
